Building a PMO with WebParts360

Audience: CIOs, IT Decision Makers, IT Managers
IT Professionals, Developers, Programmers

SharePoint Grand Prix - Race Against Time

The SharePoint User Conference Australia has an exhilarating offer for you.

In this hands on workshop you will build a complete Project Management Tracking System using the secret tools of global leaders such as Coca-Cola, Daikin and Prudential. You will also get to deploy the solution in your own environment. *

You Will Learn How To:

- Get a revolutionary 'beyond-the-box' tool that builds apps visually – FASTER than any other methods!
- Become the champion in your organisation as your SP developer productivity skyrockets... and NO CODING is necessary! It's EASY!
- Reduce the complexity, high cost and stress often associated with building SharePoint applications.
- Automatically Enforce Good Governance on your SP Solution with this best-in-class development tool.

Unique Benefits:

Can be migrated to the NEXT version of SharePoint.

Your work will be automatically and visually documented.

Allows you to re-deploy without any system restarts.

Change and extend your applications WITHOUT source code.

It is built with only a browser and doesn't need any special tools.

*Terms & Conditions

1. This offer is exclusive only to attendees who complete the GTTP workshop.
2. Only 20 seats are available and will be limited to one per company. Additional company representatives may attend subject to space availability.
3. The organiser reserves the right to refuse, change or terminate the offer at any time, under its sole discretion.
4. The development trial license of WebParts360 AppStudio is limited to a single instance per company. The trial of the Webparts360 AppStudio application is valid for 60 days from the time of activation.
5. Metisc will assist you to install and deploy the Project Management Solution in to your runtime environment. This does not include SharePoint support or configuration assistance.
6. While using your development trial license you can modify and deploy in to a single instance for your Project Management Solution developed at the workshop, using a runtime license available through Metisc and WebParts360.
7. The ROI is calculated as your GTTP fee of \$350 multiplied by 22 to reach the value of \$8000 for the Project Management Solution for SharePoint.
